Peer Support & Practice

'Terrific, I think we have understood and supported each other' program participant

In person & on MS Teams. Sessions include: hidden mindsets, listening, relatedness, communication, and more.

A leadership, support & development program for Clinical Leads

Experiential learning with peer support and reflective practice.

'this is what people really need most [...] as NHS staff' program participant

Awareness of Self & Others

100% of participants improved or **significantly improved** this **key quality** for healthcare leads.

Safe & Productive Space

Facilitators create a supportive space for 'reflections around leadership' and to 'learn from others experiences'
