

Leadership for Nursing

An innovative **support,**
development and
leadership program
for Health and Social
Care Nurses

**PROGRAM
INFORMATION**

Introduction

The *Leadership for Nursing* program is designed as a **transformative experience**. The program provides a **solid foundation** for success in the ever-evolving healthcare landscape. Through a combination of **reflection, knowledge, new thinking** and **practical skills**, and a focus on **personal growth**, participants will emerge well-prepared and empowered to grow and thrive in their health and social care careers.

The program guides participants with **minimum demand on their time** to establish a new set of **leadership skills**, enabling participants to relate differently with themselves, their colleagues, and patients. Participants will develop a set of **proactive practices**, with lasting impact beyond the program.

WHAT TO EXPECT

- Interactive sessions
- CPD Certification
- Peer support network
- Practice partnerships
- Learning through practice
- Accessible resource materials*
- A safe, compassionate, and inclusive space
- Time-efficient, online sessions on MS Teams

*for Dyslexia, ADHD, visual impairments

Core Elements

A comprehensive CPD learning and development program, designed for nurses in health and social care. Crafted to equip, support and develop individuals with essential leadership skills, new thinking and the confidence to excel in the complex dynamics of their roles.

PEER SUPPORT

Within interactive sessions and dedicated practice partnership groups, participants will share and listen, learning how to support themselves and each other.

PERSONAL & PROFESSIONAL DEVELOPMENT

Engaging in experiential learning (reflection, new thinking and practices), participants develop core leadership skills and build confidence in their abilities and practices.

WELLBEING & PASTORAL SUPPORT

Facilitated by our team of highly experienced health and social care coaches, participants will have opportunities to share challenges and be heard, valued, and supported.

CELEBRATING DIVERSITY

The program supports participants to bring their experiences, culture, and personality to their role, celebrating difference in a collaborative and inclusive space.

PROTECTED TIME FOR REFLECTION

With frequent use of break-out rooms for interactive discussion, participants are also encouraged to create their own reflective practices, with prompts in between each session.

OUR APPROACH

EXPERIENTIAL LEARNING

Experiential learning focuses on the process of learning rather than just on the learning outcomes. The measure of success for experiential learning goes beyond the acquisition of new knowledge, towards achieving behavioral change and transformation.

Talent for Care's approach to learning and development is based on **experiential learning** with **peer support** and **reflective practice**, underpinned by narrative transformation.

With highly innovative content, based on the latest neuroscience, we develop **team relationship** and **communication skills** and inspire a **mindset of possibility**.

PEER SUPPORT

The inclusive and supportive environment is key to the participants' experience. They engage with the program by connecting with each other, exchanging insights and best practice, and sharing the support and development journey.

Total time	>24 hours	Approximately 1.5 hour per week over 16-18 weeks	

Testimonials

from participants of various Talent for Care programs

It's been wonderful to **connect with different people** in similar job roles and share our experiences and to be able to get different perspectives about experiences we have in the job, **putting those into practice** too

Program Participant, October 2023

It has been **really insightful** and fostered **growth** and learning on a personal level.

Program Participant, October 2023

I was surprised by the personal essence of the program. [The] program has helped me **realise my potential** as a human being and created opportunities for me to actualise this potential in my everyday life.

Program Participant, September 2023

I can **understand my service user more** and use what we have learned to improve our quality of care and share it with my team or students.

Program Participant, September 2023

The program has helped me develop my existing skills and learn new ones too. I have **gained immeasurable perspective** from the conversations and have enjoyed the opportunity to share my own perspectives and connect with others.

Program Participant, September 2023

In our experience, the most reliable outcome measures come from participant feedback and self-assessment, which we capture through a simple, robust and anonymous framework, via an end of program questionnaire on MS Teams. We ask all participants for their consent to share their anonymised feedback.
